

HYDROFUGE 5 IN 1

Water repelling insulation of electrical equipment without silicone.

WWW.MECATECH-PERFORMANCES.COM

DATA

PROPERTIES

- ◆ Water repellent cleaning fluid, dielectric, anti - corrosion, lubricant. Silicone free formula. Waterproofing of circuits and electrical contacts Anti - corrosion protection of ferrous metals up to six months under shelter. Degreasing and solubilizing greases. Creates a thin lubricating film for precision mechanisms.

ADVANTAGES

- ◆ Dielectric strength 60 000 Volts, Combined with a flash point > 62 °C.
- ◆ Nearly colourless fluid, pleasant smell
- ◆ Specific additives providing excellent water-repelling properties.
- ◆ Aerosol with a 360° valve for use in any position

INSTRUCTIONS FOR USE

- ◆ Shake before use.
- ◆ Spray on the surfaces to be treated.
Dry after 20 to 30 minutes

PHYSICOCHEMICAL PROPERTIES

- ◆ **Appearance** Liquid
- ◆ **Odour** Low odour
- ◆ **Density** 800 kg/m³
- ◆ **Flash point** > 62°C
- ◆ **Film thickness after evaporation** 8 to 10 microns

SAFETY DATA

- ◆ Consult the SDSs of the products available on our site www.mecatech-performances.com. Professional use.

PACKAGING

- ◆ Packaging : Aerosol 650 / 400 ml
- ◆ Article number : 412012
