

TC7

7 power depollutant for Diesel engines

VERSION 1 - JAN 2024

WWW.MECATECH-PERFORMANCES.COM

DEFINITION

- TC7 is a complete depollutant specially designed for diesel engines, it performs a set of 7 actions targeted on different essential components, including the injectors, the fuel circuit, the catalyst, the particle filter, the turbo, the EGR valve and the combustion chamber.
- It performs thorough cleaning, provides lasting protection and restores the proper functioning of these elements, thus promoting optimal performance.

RESULTS

- Reduces exhaust fume emissions.
- Restores normal fuel consumption and normal engine operation.
- Avoids clogging of the DPF and the catalyst, and improves its regeneration.

DOSAGE ET APPLICATION

- A dose of 1L for a full tank of 50 to 70L of diesel
- Treatment recommended once a year or every 15,000 km
- Pour the dose into the tank before refueling.

SAFETY DATA

- Consult the SDS of the products available on our site
- www.mecatech-performances.com.
- Professional use

CONDITIONNING

- • Packaging: 12x1L boxes
- Ref : MT017
